SCALE

Residents and property owners disposing of Construction Debris (C&D), refers to waste generated from the construction, remodeling, repair or demolition of structures, and oversized bulky waste are required to have their loads weighed. Examples of items to be weighed include, but not limited to, wallboard, sheetrock, tiles, flooring material, non-asbestos insulation, siding, plaster, roofing, shingles, and furniture. You will be required to (1) drive on the scale to be weighed, (2) dispose of your waste at the designated location, (3) proceed back to the scale to be weighed again, (4) drive to the upper office building to pay the disposal fee. Failing to pay the disposal fee before leaving the facility may result in the use of the Scale service being denied until your bill is paid.

The disposal fee is \$0.10 per pound after the first 20 pounds.

Please see an attendant if you have any questions.
